SECURITY : ARMORED VEHICLES

We develop and produce armoured vehicles in various security levels – from fully armoured vehicles that comply with the highest military protection standards through to individual partial light armour. With this in mind, we only use high-quality certified ballistic materials.

Our portfolio includes off-road vehicles, limousines and commercial vehicles, which we customise for a wide range of applications with numerous configuration options and systems. We are proud to be able to support our customers with our decades of experience, state-of-the-art machinery, and zero tolerance policy to errors. After all, when it comes to keeping people safe, there's no room for compromises.

All of our armoured vehicles have been tested under the most rigorous conditions in our ballistics laboratory and certified by the national proof house. We have specially adapted and reinforced the chassis components in our vehicles to ensure safe handling in every situation.

And we also offer you a whole host of services designed to ensure you can always use your vehicle to its full potential. These include repairs (including directly in the field), driver training and a global spare parts supply.
